Capo 5

## **Verse 1:** *Em C*

Seems I whisper dreams in the sky when I speak to You

Opening drawers of letters before, before we were so old

Old in our days and set in our ways, when sleep comes before anything

## **Chorus:**

*G* *D* *Am* *C*  
And now, dear children, climb these mountains, just to see the other side of anywhere

*G* *D* *Am* *C*  
And now, dear children, climb these mountains, just to see the other side, the other side of anywhere

## **Verse 2:** *Em C*

We're standing so still when we could explore this valley where we've never been before

Faith like a child has brought us so far, letting go now would be a shame

A shame to our God, so full of life, bring us Your face, teach us Your faith

## **Bridge:**

*G* *D*  
Let's dream when we're awake, act on what we say

*Am* *C*  
Teach us Your grace, O Lord, teach us Your faith
